DETAILED ACTION

Election/Restrictions

1. Applicant's election without traverse of Group II, claims 12-17, in Paper No. 10, received October 1, 2003 is acknowledged. Claims 1-11 are withdrawn from consideration.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claims 12-17 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Applicant does not disclose a settlement computer coupled to a plurality of remote payment modes by a communications network, aggregating payment information comprising payment values, remote payment parties, number of payments and number of payment values from the "DETAILED DESCRIPTION" of the specification in juxtaposition to the drawings. It is noted the "SUMMARY OF THE INVENTION" discusses briefly discusses payment nodes. As is, it is not clear how the claim language is supported by the specification as a whole. Applicant is required to specifically point out the specific portions of the present application where support for the claim language may be found. No new matter may be added.

Drawings

4. The drawings were received on June 24, 2002. These drawings are not acceptable.

Applicant's is given notice that the drawings are deemed deficient as the descriptive portion of the specification do not correlate with the drawings upon review of the issues raised above.

Claim Rejections - 35 USC § 103

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

6. Claims 12-17, as understood, are rejected under 35 U.S.C. 103(a) as being unpatentable over Cotton et al, US 6,076,074.

Cotton discloses a system for payment transactions comprising a computer system, e.g. Fig. 1A, coupled to a plurality of remote payment nodes, e.g. col. 38, in a communications network, e.g. 72, where individual transactions equal to a net sum of payment values are executed, e.g. col. 7. Cotton does not disclose the term settlement computer. To have provided the computers of Cotton to comprise a settlement computer would have been obvious to one of ordinary skill in the art. Doing such would implement common knowledge within the financial processing art. Regarding claim 17, this appears an obvious factor for one of ordinary skill in the art.

7. Further pertinent references of interest are noted on the attached PTO-892.

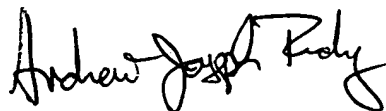

8. It is noted that the present Application indicates an Information Disclosure Statement was forwarded to the USPTO on December 11, 2001. However, no such record of the IDS is contained within the Application.
